Re: Pro Duffers National Tournament

Dear Sir,

Pro Duffers Golf Club, USA is a national organization. We have been a chartered golf club for over twenty years however, the Pro Duffers have been in existence for more than forty years. We have nine chapters across the United States and growing. Each chapter host monthly golf tournaments and the membership sponsors community service activities related to golf. The national has two major events per year. The Spring Fling is held in April and our national meeting and tournament in September. Each year one of our chapters plays host to an event. The Atlanta chapter has that responsibility this year.

The national meeting was scheduled for the Wyndham Hotel in Orlando, Florida. We were to play the Walt Disney Golf courses. A year of planning and negotiating resulted in hurricane Ivan foiling our event. The hotel could accommodate rescheduling but the Disney Golf Courses could not. It was a tremendous disappointment for our membership. As you are aware of the weather conditions that have confronted the Southern Seaboard, it looked very likely that we would not be able hold our annual event this year.

Evergreen Marriott Resort came to the rescue with a great facility and immediate attention to our needs. For this, we will be forever grateful. However, the negotiation, planning, and work we have done this past year has not gone for naught. Arrangements have been rekindled and we are satisfied with the additional work that has been done at the previous location. Without a doubt, Evergreen will be in our thoughts when its time for selecting our next two events.

Thank you again for your help and understanding.

Sincerely,

Thomas H. Sweeney Jr, MS, MT(ASCP)
National President
